PROFESSIONAL SUMMARY

MSc Corporate Finance student with bachelors degree in Computer Science, combining strong quantitative modelling with full-stack software development. Skilled in Python, SQL, REST APIs across cross-functional Agile teams. Seeking roles in FinTech engineering, FP&A analytics, finance system advisory.

WORK EXPERIENCE

Software Development Intern - Ailtir, Ireland **Jan – Apr 2025**

- Built and launched the company website in Framer within 1 week for fast customer recruitment, integrate Make.com automation to collect customer details in database.
- Developed modular components in React and TypeScript for an AI-power tender and bid management platform.
- Partnered with 3 cross-functional teams (management, marketing, and design teams), contributing to backend tasks to expend technical skills while managing sprint tasks in Jira.
- Improved communications by translating business needs into rapid software solutions, while developing high adaptability, task prioritisation, and cross-functional teamwork under tight commercial deadlines.

Tech: *React, TypeScript, Vite, Jira, Slack, Framer, Make.com*

PROJECTS

Bloom: AI-Powered Personal Finance Tracker **Sep 2025 – May 2026**

- Created a full-stack personal finance application integrating the Plaid API to securely aggregate bank transactions across 10+ spending categories.
- Designed a sequential machine learning pipeline (Deep Feature Synthesis, Isolation Forest, XGBoost, Prophet) to detect anomalies, forecast spending, and generate personalised financial insights.
- Integrated a local model (Ollama/Qwen3 1.7b) and a cloud model (Gemini 1.5 Flash-Lite) into a Fast API chatbot agent, leveraging pipeline data to deliver personalized financial insights and benchmarking models performances.

Tech: *React, Vite, TypeScript, PostgreSQL, Python* | ***GitHub:*** *https://github.com/Yunnna005/FYP*

Applied AI Coursework - Predictive Modelling, Optimisation, Search **Jan – May 2026**

- Built and compared regression models (Linear Regression, Random Forest, Gradient Boosting) to predict a continuous outcome from a blended real-world dataset.
- Designed a genetic algorithm to resolve multi-agent conflicts under real-world constraints.
- Implemented a Minimax search-tree AI with heuristic evaluation and move ordering, demonstrating structured decision-making over a large space of possible outcomes.

Tech: *Python, Jupyter Notebook* | **GitHub:** *https://github.com/Yunnna005/mtu-ai/tree/main*

TECHNICAL SKILLS

Programming Languages: Python, Java, C#

Database Management: PostgreSQL, SQL, CouchDB, MariaDB, MongoDB

Cloud Platforms / DevOps Tools: Azure, AWS Console, Docker

Tools: GitHub, Git, VS Code, Microsoft Visual Studio, IntelliJ IDEA, Trello, Slack, Jira, Framer, Canva, Visily

Financial: Financial Data Modelling, Predictive Analytics, Cash Flow Forecasting, Time-Series Analysis, Machine Learning Pipeline

Certifications: Essential Skills in Microsoft Excel by McGraw Hill

EDUCATION

MSc Finance (Corporate Finance) **2026 – Present**

University College Cork, UCC

Related Modules: Investments & Equity Valuation, Financial Analysis and Forecasting, Treasury & Risk Management, Python and Machine Learning for Finance, Capital Markets & Regulation and Compliance

Bachelor of Science (Honours) in Computer Science **2022 – 2026**

Munster Technological University, MTU Kerry

Grade: First Class Honours (1:1)

Related Modules: Artificial Intelligence, Advanced Databases, Data Analytics, Data Structures & Concurrency, Cloud Analytics, Software Project Management

ACTIVITIES & SOFT SKILLS

Chairperson | ***MTU Dance Society*** **2023 - 2026**

By running society events and teaching weekly dance classes to students of all levels, built strong **communication**, **public speaking**, and **coaching skills**. By working closely with committees, university staff, and outside venues, developed **teamwork** and **organisation skills**.

Captain | ***MTU Women's Volleyball Team*** **2023 - 2026**

By leading the team through training and matches, built **leadership** and **teamwork skills**. By handling communication and resolving conflicts under pressure, developed calm, confident **decision-making**.

Participant & Tech Contributor | ***Dublin Give(a)Go Hiring Hackathon (2026) & Dublin HackIreland (2025)***

By working closely with others to build and present software ideas in a short timeframe, developed **collaboration**, **adaptability**, and **presentation skills**.

Participant | ***Legacy Dublin23 Leadership Programme - Common Purpose Ireland (2023)***

By working alongside senior leaders on real-world community challenges, developed **confidence**, **big-picture thinking,** and **people skills.**
